## PROFILE

I am a computer Science student focused on frontend and full-stack development using React, Next.js, Node.js, and Supabase. Experienced in building SaaS applications, integrating APIs, implementing authentication, and deploying production ready web apps on Vercel. Skilled in rapid prototyping, responsive UI development, and creating clean, maintainable code.

## EDUCATION

<b>Bachelor of Science in Computer Science</b> , SZABIST University Karachi	2023 - 2027
<b>Intermediate in Pre-Engineering</b> , The Scholar Public Higher Secondary School Umerkot	2021 - 2023

## SKILLS

<b>Frontend</b>	React, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML, CSS
<b>Backend</b>	Node.js, Express.js, Supabase, MySQL, REST APIs
<b>Programming</b>	Python, Java, C, PHP
<b>AI/Integrations</b>	AI API Integration (Gemini, Groq), AI-Assisted Development, Serverless Functions, Webhooks
<b>Developer Tools</b>	Git, GitHub, Vercel, VS Code, Cursor, Claude AI, Postman
<b>Soft Skills</b>	Rapid Prototyping, Problem Solving, Team Coordination, Communication

## PROJECTS

**AgriConnect - Farm-to-Table Platform** ([GitHub](#)) Developing full-stack platform connecting farmers with consumers using Laravel and Bootstrap. Implementing product listings, farmer profiles, community engagement, and responsive design to eliminate middlemen and promote fair trade.

**AI SaaS Platform (StorySmith AI)** ([GitHub](#)) Developed a full-stack AI content generation platform using Next.js 14, React, and Supabase with integrated AI APIs (OpenAI/Gemini). Implemented Stripe subscription billing, JWT authentication, auto-save drafts, and responsive UI with custom animations.

**ProDraft AI (In Progress)** ([GitHub](#)) Developing a minimalist AI-powered content polishing platform using React, Next.js, and Supabase. Integrated Google Gemini API for advanced text enhancement, with secure authentication and user dashboard. Deployed on Vercel with serverless architecture.

**ConnectSquare (Community Engagement Platform)** ([Vercel](#)) Built a full-stack event discovery and volunteering platform with admin approval workflows and secure authentication. **Tech Stack:** Next.js, React, Supabase, Tailwind CSS.

## EXPERIENCE

<b>Trainee Sales Executive</b> HumanTek	May 2025 - July 2025 <i>Karachi</i>
--	--

## TRAINING / COURSES

- **GirlScript Summer of Code 2024 Extended (GSSoC)** - Active open-source contributor
- Google Cybersecurity Professional Certificate, Coursera
- Google AI Essentials Specialization, Coursera

## LEADERSHIP

- Volunteered at tech community events including +92 Disrupt 2025, Slush'D Karachi 2025 (Katalyst Labs), and CONNEX'25 (PSTD). Served as an Appraiser and Volunteer at Imagination Destination (Streams International Academy), supporting logistics, attendee management, and event coordination.
